

## **BLA Board Nominee Considerations**

1. The BLA Board is a “working board. It is not a Board that just meets monthly to review operations and to discuss policies and strategies. Each Board member is required to physically and actively contribute to a minimum of two or three BLA Projects such as the following. These are just a few of the skill sets needed which you can learn on the job if you have the desire and basic skills and do not already possess those skills:
  - a. Membership Data Management with DonorSnap software.
  - b. Website Management with DNN based software.
  - c. Accounting/bookkeeping with Quickbooks.
  - d. Lake water testing.
  - e. Courtesy Boat Inspections
  - f. Loon Project Surveys
  - g. Summer Raffle Organization
  - h. Adopt-a-Shoreline Volunteers
2. We are always looking for skillsets that will help to take the association to the next level.
3. Every Board member is expected to do their respective homework prior to any Board meeting.
4. It is an honor to have those necessary qualifications and to be considered for the BLA Board!
